Public Notice:
Proposed Underground Storage Tank Case Closure

Pilot Travel Center No. 168 (T0611300201) Case No. 570254
30035 County Road 8
Dunnigan, Yolo County, CA

Pilot Travel Center No. 168 located at 30035 County Road 8 in Dunnigan, California, has cleaned up a petroleum release associated with its underground storage tanks (USTs). The Central Valley Regional Water Quality Control Board (Central Valley Water Board) is providing you an opportunity to comment regarding the proposed cleanup case closure.

The Site has operated as a truck stop/gasoline fueling station for approximately 50 years. During this time, several unauthorized petroleum releases have occurred at the Site. Prior to 1981, the Site was owned by Atlantic Richfield Corporation (ARCO). Bosse, Inc. (Bosse) purchased the property in 1981 and began operation as a fueling and service station until 1998, when it was purchase by Pilot Travel Centers LLC, the current Site owner.

Since 1988, multiple environmental investigations have been performed at the Site. More than 50 groundwater monitoring wells have been installed (although many have been abandoned and/or replaced) and decreasing groundwater levels rendered many wells dry. The current extent of the residual petroleum groundwater plumes, based on data collected during the Fourth Quarter 2020 groundwater monitoring event are shown on Figure 1.

Based on these data, Broadbent & Associates, Inc. submitted the *Sensitive Receptor Survey and Case Closure Evaluation* report on behalf of Pilot Travel Centers LLC. Central Valley Water Board staff reviewed the request for regulatory closure and based on the data, concluded the case meets the criteria for closure. The Central Valley Water Board is issuing this notice and providing a 60-day public comment period to the owners and occupants of all properties near Pilot Travel Centers No. 168 and other interested parties. Central Valley Water Board staff will consider comments they receive when evaluating the case closure.

Public Comment Period: June 14, 2021 through August 13, 2021

FOR MORE INFORMATION

You can obtain additional information on the [State Water Resources Control Board's GeoTracker website](http://geotracker.waterboards.ca.gov/) (<http://geotracker.waterboards.ca.gov/>). Please contact Galvin Kauffman with the Central Valley Water Board if you have any comments or questions about this Public Notice or about the environmental cleanup activities at Pilot Travel Centers No. 168:
